BOROUGH

POOL REQUIREMENTS

Must be 5 feet from side yard.

Electrical Ground Fault on water filter and pump must be installed.

4' Fence mandatory around pool, however if above ground pool side is at least 4' high this will suffice as fence. Ladder must be removed from pool when not in use if above ground pool.

Inflatable pools, hot tubs and spas, containing water more than 24" in depth must be completely surrounded by a fence or barrier at least 48" in height.

Ladder and steps must be skid proof.

Pool must be located 10' from the principal structure.

Pool must be located not less than 5' from the rear property line except if the property abuts an alley, in which case 10' will be required.

If deck is located on above ground pool, a gate must have a lock and be self latching; also a gate must swing toward entrance.
